

Helpful Hints & Tips

Detox daily!

Consider a daily dose of **NEWTON's Detoxifier**. A "clean" body will maximize the effectiveness of other remedies, supplements and vitamins.

Wait for it!

Wait 15 minutes between taking homeopathy and eating, drinking, taking drugs, supplements or other remedies. This decreases interference with the homeopathics.

Drop it in!

Liquid remedies should be placed directly in the mouth or dropped into a small amount of water. As the remedy contacts the mucous membranes of the mouth, it is absorbed into the body.

Cross it over!

Although **NEWTON** manufactures complexes specifically for Kids and Pets, a condition may arise for which there is no prepared Kids/Pets complex. Be assured that all **NEWTON** complexes are manufactured using the same high quality raw materials and stringent manufacturing controls.

Mix it up!

If an alcohol-free remedy is preferred, place the drops of homeopathy in a small amount of warm water and let stand for 10 minutes to allow the alcohol to evaporate prior to dosing. The FDA mandates that liquid homeopathics contain a preservative; **NEWTON's** choice of preservative is USP certified gluten-free, non-GMO, organic cane alcohol. **NEWTON's** certified gluten-free, non-GMO, organic beet-derived sucrose (lactose-free) pellets are another alcohol-free alternative.

Don't touch it!

Pellet remedies should be taken without being touched. The outermost layer of the pellet contains the active ingredients. Warmth from the human hand and oils from the skin may remove some of the remedy on contact. Dispense into the bottle cap or a spoon and then pour into the mouth.

Keep it protected!

NEWTON's UV-resistant containers protect the homeopathics from light exposure.

Welcome to Homeopathy

Homeopathy, a complete system of healing with its own method of diagnosing and its own special remedies, was developed by Dr. Samuel Hahnemann over 200 years ago. Homeopathics have no known harmful side effects, may be used by everyone, including pets, and can be administered for both acute and chronic conditions.

Homeopathics are made from minute amounts of plant, animal and mineral substances prepared by the process of dynamization. Dynamization is a process whereby a minute amount of substance is diluted, to as much as one part per ten billion and beyond, and succussed (vigorously shaken). Scientists have theorized that homeopathy may function similar to the way enzymes or hormones function in the body. Although they are found in similar minuscule amounts, they are believed to have very powerful effects.

People are returning to homeopathy because they understand that in order to achieve health, one must discover the root cause of disease and not just treat the symptoms. Many Americans now understand that pharmaceutical drugs often interfere with the body's natural ability to heal itself. Suppressing, or merely removing symptoms, is a temporary solution at best. Addressing the "whole" person naturally is the long-term solution to modern states of disease. This is the role of homeopathy.

NEWTON complexes are the result of advanced evolution in the use of homeopathic remedies in Europe, especially in Belgium, France and Germany. Starting in the mid-1800s, through the beginning of the 20th century, the French homeopaths developed the technique of draining toxins from the body by using a series of drainer remedies. Dr. Luc took this idea and combined it with the concept of complex remedies. The use of just such a complex saved his life. His experience, as a practicing homeopath for nearly 50 years, resulted in the development of the wide range of **NEWTON** complexes.

NEWTON offers over 100 combination remedies for your entire family and pets.

Jump~Start Your Health!™

Tri-Homeopathic System™

Three Keys to Wellness!

Detoxifier is formulated for symptoms associated with toxicity such as fatigue, headaches and sluggish elimination.

Detoxifier has been **NEWTON's** premier and best-selling product since 1987. This combination of single remedies focuses on the body's ability to eliminate toxins. Our founder, Dr. Luc Chaltin, developed the technique of "clearing the terrain" to help people who exhibit multiple symptoms that are vague, complicated and difficult to diagnose.

As the terrain is cleared through proper elimination, underlying causes that have been masked by symptoms should become easier to identify. Since the liver rejuvenates during periods of sleep, we suggest taking **Detoxifier** at bedtime. The standard adult dosage is 6 drops taken before bedtime. For sensitive persons, begin with 1 drop taken in the morning and gradually increase to full dosage over a two- to four-week period to avoid a healing aggravation.

A healing aggravation is a harmless and temporary condition during which symptoms can intensify, appear or reappear. The symptoms should be mild and last no longer than a few days. Natural health professionals see this as a positive sign that a healing process has begun. Most do **not** experience healing aggravations.

Bowel~Digestive Care is formulated for associated symptoms such as vomiting, burning, bloating, gas, nausea, cramping, pressure and other related symptoms.

Taking into consideration the shortage of clean, fresh, live foods in our diet, it is essential that we take control of our digestive health, clear the terrain and allow our bodies to become well-balanced. The standard adult dosage for this formula is 6 drops – 15 minutes before each meal and as needed for acute situations such as indigestion, nausea, vomiting or diarrhea.

Rheumatic~Joint Care is formulated for associated symptoms such as pain, stiffness and swelling.

Proper assimilation (transformation of food into tissue) and efficient processing of metabolic toxins (uric acid and other free radicals) are dependent upon a well-balanced body. An out-of-balance body coupled with a diet that may be excessive, too rich or lacking essential nutrients can cause a build-up of toxins resulting in joint pain, inflammation and discomfort. Take control of joint health and clear the terrain for a well-balanced body. Standard adult dosage is 6 drops one to four times daily and as needed for acute situations.

*All three complexes are available individually in pellet form at standard pellet prices.
