

## Our Founder ~ Dr. Luc Chaltin

In 1965, Belgian-born Luc Chaltin was gravely ill with tuberculosis. He could not tolerate traditional medical treatment and classical homeopathy could not help him. This life-threatening experience led him on his journey.

As fate would have it, his search led him to a book that explained the importance of liver drainage (detoxification). Consequently, Dr. Luc began using homeopathic remedies known to cleanse or “drain” the liver of toxins and combined these “drainers” with other homeopathic remedies known to support excretory function. He soon developed a combination formula and labeled it “Drainer.” His condition quickly improved. Within six months, there was no evidence of tuberculosis.

In 1987, Dr. Luc became a U.S. citizen and founded Newton Laboratories, Inc. He began to manufacture and market “Drainer,” along with other unique formulations he had developed while still living in Belgium. His formulations focus on detoxification while addressing symptoms of acute and chronic illness. The theory of detoxification for toxic, chronic afflictions remains at the forefront of holistic healing methods today. All NEWTON complexes continue to be developed using his unique methods.

American Academy  
**AACH**  
Clinical Homeopathy

Learn via webinars, courses, our Clinical Homeopathy Diploma Program, or join the AACH Membership Club.

Many educational avenues exist for the practice of classical homeopathy. The AACH provides articles, case studies, lecture offerings, and other information related to the unique practice of clinical homeopathy.

The AACH utilizes Thinkific to bring its students a dynamic online learning experience. Thinkific is interactive, easy to use, and allows the student to work at his/her own pace to complete course studies. Students can communicate with course creators through the Thinkific platform.

## NEWTON Complexes CATEGORIES

### OVER-THE-COUNTER

Allergies	Joint~Muscle~Bone
Circulatory	Nervous
Detoxification	Reproductive
Digestive	Respiratory
Ear~Nose~Throat	Skin~Hair
Fatigue	Integrative Complexes
Fever~Infection	Urinary
Injury~First Aid	Weight

### PROFESSIONAL

**Dispensed by health professionals only.  
Not for over-the-counter sale.**

Cardiovascular	Neurology
Gastrointestinal	Neuropsychology
Genitourinary	Ophthalmology
Immune-Infection	Otolaryngology
Integumentary	Reproductive
Musculoskeletal	Respiratory

### OTC SINGLE REMEDIES

**Arnica montana**  
**Rhus tox**  
**Thuja**

**For self-limiting conditions not requiring the guidance of a health professional, NEWTON offers over 100 combination remedies for your entire family and pets.**

**NewtonHomeopathics ~ NewtonHomeopath**

NEWTON product uses are based on traditional homeopathic practice. The products have not been evaluated by the FDA and have not been evaluated for scientific-medical evidence. Information, statements and reviews regarding products have not been reviewed or evaluated by the FDA.

# CHOOSE NEWTON ~ CHOOSE QUALITY

## Expertise & Experience

The not-so-secret ingredient that places NEWTON above all others lies in the history and formulation of its complexes by world-renowned authority, Dr. Luc Chaltin. His nearly 50 years of clinical experience and research made him unparalleled in his ability to develop complex remedies.

## Quality Assurance

NEWTON is an FDA-registered homeopathic manufacturer and prepares its remedies according to the Homeopathic Pharmacopoeia of the United States. Dr. Luc structured NEWTON around the philosophy of quality. Raw materials and finished products are tested by an FDA-registered independent laboratory.

Historically, liquid homeopathics have been made, preserved and packaged with a small amount of alcohol. The Homeopathic Pharmacopoeia mandates that a preservative be used. NEWTON uses gluten-free, non-GMO, certified organic cane alcohol as a preservative. Our pellets are gluten-free, non-GMO, organic beet-derived lactose-free sucrose. Glass is inert and will not interact with homeopathy. NEWTON packages only in amber glass that protects the homeopathics from light exposure.

## Environmental Awareness

Dr. Luc was an environmental advocate before NEWTON was established. In 1972, he wrote his first book in Dutch and hosted a Belgian radio show on organic gardening. NEWTON decreases its impact on the environment through minimal retail packaging and uses biodegradable, recycled or recyclable materials.

## Variety & Selection

NEWTON manufactures over 100 over-the-counter (OTC) complexes for adults, kids and pets and over 80 health professionals-only (PRO) single remedies and complexes.

## Economical & Easy to Use

Homeopathy is much less expensive than pharmaceutical drugs. Homeopathic drug products are exempt from expiration dating, eliminating the need to replenish outdated product. Compare labels carefully. NEWTON's standard 3 to 6 drops/pellets dosage is lower than many other brands, making it more economical. When you consider all the single remedies available, NEWTON simplifies the process by combining the most appropriate remedies for you as complexes. We believe complexes are the quickest, most efficacious way to use homeopathics. NEWTON liquid complexes come with a Euro-dropper delivery system for ease of use. Sprayer tops and glass/plastic droppers are also available for purchase, separately.

## Reach for the Gold!

- **Approximately 100 adult doses per bottle**
- **Hand-succused and packaged in glass**
- **No known food, drug, or herbal interactions**
- **No known side effects or physical addiction**
- **No expiration date**
- **Certified organic, non-GMO, lactose-free, gluten-free alcohol and pellets**

## Manufactured in America Woman/Veteran-Owned

NEWTON has been based in Georgia since its inception. Belgian-born founder, Luc Chaltin, epitomized a hands-on business approach during his lifetime. That philosophy continues as NEWTON remains family-owned with hands-on participation by its principals. Marge Roberts, a Registered Nurse for 30 years, and Ron Parker, a former chemical formulator and lobbyist, are the current owners and principals of NEWTON. Although homeopathy is recognized and accepted in Europe, England and other developed countries, many are unfamiliar with this amazing natural approach to healthcare. Dr. Luc introduced his clinical homeopathy approach to America. Both Marge (Army) and Ron (Air Force) are veterans and are committed to sharing that approach.

## Customer Support

Although NEWTON is unable to serve as your healthcare consultant or give medical advice, NEWTON's Customer Care Team is available to assist with any questions pertaining to NEWTON's products.

## General Guidelines for Use

NEWTON's standard dose is 6 drops/pellets for adults, 3 drops/pellets for kids. If you have environmental sensitivities or have a tendency to overreact, begin with 1 drop/pellet for a couple of days, then go to two for a couple of days and increase by one or two drops/pellets each additional day, until you reach the recommended standard dose.

If an alcohol-free remedy is preferred, place the dose in a small amount (approx. 1 tbsp.) of very warm water, and about 90% of the alcohol will evaporate in a few minutes. NEWTON pellets are offered as an alcohol-free alternative. Not all complexes are available in pellets.

The preferred method of administration is to put the dose directly on or under the tongue in a clean mouth. However, the most critical factor is to take the homeopathic. It is important to be consistent. Don't skip doses or skip days. If you feel you need more, take it more frequently but maintain the 6-drop dose. Increase the frequency rather than the dosage.

Homeopathy is forgiving. For example, if you forget to take **Bowel~Digestive Care** 15 minutes before eating, take it after. If you accidentally take 7 drops or 10 drops – no problem. For some conditions, such as joint pain, tobacco/appetite cravings or allergy discomfort it may be necessary to take a complex several times a day for the first day and then decrease the frequency as the symptoms lessen.

Listen to your body and adjust the frequency as needed. We advocate taking a couple of doses after acute symptoms, such as headache, are resolved and taking the remedy for a couple of weeks after the symptoms are gone for chronic conditions such as menopause. If you aren't experiencing results with a three-times a day dosing, consider four-times a day.
