

## OUR FOUNDER ~ DR. LUC CHALTIN (1923 - 2008)

In 1965, Belgian-born Luc Chaltin was gravely ill with tuberculosis. He could not tolerate the traditional medical treatment and classical homeopathy could not help him. This life-threatening experience led him on his journey.

As fate would have it, his search led him to a book that explained the importance of liver drainage (detoxification.) Consequently, Dr. Luc began using homeopathic remedies known to cleanse or “drain” the liver of toxins and combined these “drainers” with other homeopathic remedies known to support excretory function. He soon developed a combination formula and labeled it “*Drainer.*” His condition quickly improved. Within six months, there was no evidence of tuberculosis.

Determined to continue his research and share his discovery with others, Dr. Luc sought additional learning opportunities. He studied pre-med at the Rijksuniversiteit Antwerpen Medical College in Antwerp, Belgium. In addition, he earned a homeopathic diploma from the British Institute of Homeopathy and a degree in Naturopathy. He began to teach homeopathy, lecture, write books and publish articles for scientific journals. During his career, Dr. Luc assisted in the healing of thousands of people throughout the United States, Europe and the Caribbean.

In 1987, Dr. Luc became a U.S. citizen and founded Newton Laboratories, Inc. He began to manufacture and market “Drainer,” along with other unique formulations he had developed while still living in Belgium. His formulations focus on detoxification while addressing symptoms of acute and chronic illness. All NEWTON complexes continue to be developed using his unique methods.

At Amsterdam’s 1992 International Conference on AIDS, one of Dr. Luc’s papers on autoimmune diseases was presented by noted scientific author, Christopher Bird. In 1993, Dr. Luc served on a special committee established to review grant applications for the Office of Alternative Medicine at the National Institutes of Health (NIH).

To aid in the promotion of homeopathy and the education of others, Dr. Luc established the American Academy of Clinical Homeopathy (AACH). Hundreds of formal and informal students have taken advantage of AACH’s trainings. Many have completed its *Clinical Homeopathy Correspondence Course* and have gone on to promote healing through clinical homeopathic methods. Today, the AACH has a staff of educators, support personnel and graduates who are embracing and continuing Dr. Luc’s vision for educating the masses in this valuable healing method.

In 2017, the AACH published a book entitled *Healing with Clinical Homeopathy, the Life, Vision, Genius and Legacy of Dr. Luc Chaltin*. It is not only a fascinating biography of Dr. Luc’s life, but also examines the development of his clinical philosophy and methods. Learn how you too can address acute or chronic conditions utilizing his methods.

## OUR PRESIDENT ~ MARGE ROBERTS

In 2004, Dr. Luc entrusted the daily operations of NEWTON/AACH to Marge and a well-trained team of experts. She currently lectures at community gatherings, universities, and national health-related events. In addition, she serves as an adjunct professor at Life University, teaching an undergraduate course on homeopathy. She has appeared on numerous television and radio shows discussing complementary/alternative medicine, homeopathy and issues of health care freedom. Marge and the NEWTON team are committed to continuing the legacy of natural healing and education that Dr. Luc began.

Marge received her BS in Nursing from the University of Wisconsin and her MS in Health Professions from Southwest Texas State University. In 1994-95, she studied homeopathy and acupuncture in the United States and Sri Lanka. From 1996-2011, she was the co-founder and president of the Complementary/Alternative Medical Association, and spent many years advocating at the Georgia State Capitol on behalf of natural medicine. She began studying clinical homeopathy with Dr. Chaltin in 1996 and subsequently received a DAHom from the American Academy of Clinical Homeopathy. In 2004, she wrote and published *My Body, My Health, My Choice*, a book about the health freedom movement. She is a member of the Homeopathic Nurses Association and retired after 30 years of nursing to serve as President/CEO of Newton Laboratories, Inc.

Marge Roberts tells the story of Dr. Luc Chaltin, founder of NEWTON and a leader in clinical homeopathy.

Dr. Luc was an amazing man with an amazing story. Not only did he survive the War by hiding from the Germans and heal himself of tuberculosis using homeopathy, he developed a homeopathic approach for tackling chronic diseases. In this book, Marge will enlighten you about the philosophy, theory and approach to homeopathy as taught by Dr. Luc. The clinical homeopathic approach is a practical method for addressing the chronic conditions that are so prevalent today.

Find it on Amazon, at your favorite health food store or order online at [newtonlabs.net](http://newtonlabs.net). Ebook and interactive versions are also available. The interactive version contains a video of Luc lecturing, audios featuring family and admirers and many historical pictures not contained in the printed version.
