

EURO-DROPPER DELIVERY SYSTEM

Transition will continue as our current dropper supply is depleted. Dispenser carefully selected to deliver drops
~ not too fast, not too slow.

Liquid remedies are easy to identify
with unique color-branded caps.

All pellets will maintain
black caps.

Compatible glass bulb-style droppers, bulb-style plastic droppers, and spray tops will continue to be available for purchase, separately.

Remedies are identified by product size/form listed on the front panel of each label.*
FL OZ (ML) = Liquid / OZ (G) = Pellets

Why are we making the switch?

- No fear of children or pets clamping down on a glass dropper.
- Decreased potential for contamination with recessed dropper.
- Easier to carry and store; takes up less space in your customer's purse or pocket as well as on your store shelves!
- Easier to administer/dispense, down to the last drop!
- A visual reminder to Reach for the Gold!
